

Daidoji Uji, Daimyo of the Daidoji Family

Glory 7.8

Personality: Ruthless, Loyal, Fearless, Clever, Practical

Motivations: Restore the Crane Clan, Avenge the Crane Clan, Protect the Empire

What You Know: The Crane Clan has been brutalized over the last year. Kyuden Doji and the Clan Champion, Doji Hoturi, were consumed by a mysterious darkness which seemed to be like and yet unlike the Taint of Jigoku. Then Shiro Sano Kakita was overrun and destroyed by a Shadowlands raiding force which seemed to exhibit many of the same strange abilities as the evil in Kyuden Doji. And at the same time, Kyuden Asahina was sacked by a Crab army infested with the Shadowlands Taint.

You cannot doubt that this was a coordinated assault by the forces of Fu Leng, in alliance with some new evil whose nature you do not fully comprehend. Now the same evil has captured the very capital of the Empire, and slain the Hantei Emperor. It must be stopped, regardless of cost.

Goals: You have spoken with some samurai who claimed to have a way of defeating this strange new evil. You must find them now and learn if they spoke true – and if they did, find a way to accomplish this, whatever the cost. The Crane Clan has suffered bitterly from this foulness; only if it is defeated will the Clan be avenged, able to rebuild in peace, its dead able to rest in Yomi.
